

Cedars Park Arboretum Zones

A DEER PARK

Part of a 2500-acre deer hunting ground built by King James I in 1607 and 1620.

B GREAT GARDEN

Section of a large formal area at Theobalds known as the Great Garden. Sir William Cecil used this garden to host entertainments for Queen Elizabeth I during her visits. It included elaborate flowerbeds, fountains and garden buildings. Bee boles were built into the surrounding walls, and are extant today.

C THE CEDARS

A property with this name was built on the grounds in the 1760s. The central building burnt down on 18/9/1913, and today the surviving buildings serve as the cafe, toilets and meeting room.

D POND QUARTER

Location of the park's duck pond.

E GREAT WAR CENTENNIAL CORNER

Location of the park's new (2019) War Memorial.
